+ Add List

The Gantt chart displays the project schedule across several months. The timeline starts in August 2020 and ends in April 2021. Key milestones and tasks are as follows:

- Project Setup:** A long green bar spanning from early September 2020 to early November 2020.
- Requirements:**
 - Hardware Requirements:** A green bar from early November 2020 to mid-November 2020.
 - Simulator Requirements:** A green bar from mid-November 2020 to late November 2020.
 - Firmware Requirements:** A green bar from late November 2020 to early December 2020.
 - Design Requirements:** A green bar from early December 2020 to mid-December 2020.
 - Requirements docs complete:** A yellow diamond milestone on the vertical 'Today' line in early November 2020.
 - Reserch Requirements:** A green bar from mid-December 2020 to early January 2021.
- Interim proposal:**
 - Proposal Due:** A yellow diamond milestone in mid-December 2020.
- Viva & Report:**
 - Research Complete:** A yellow diamond milestone in early March 2021.
 - Project Week (Viva):** A blue circle milestone in early March 2021.
 - Final Hand In:** A yellow diamond milestone in early April 2021.

A vertical green line labeled 'Today' is positioned at the beginning of November 2020.
